

**INDIAN ASSOCIATION FOR PROMOTION
OF ADOPTION & CHILD WELFARE
IAPA**

**FORTY THIRD YEAR
ANNUAL REPORT
2012-2013**

- The **VISION** of **IAPA** is for every **CHILD** to grow up with love and nurturance in the permanent security of a family; to have the opportunity for education and all-round development in a supportive environment.

- **IAPA MISSION** is to secure a nurturing family environment for the **CHILD**, so deprived, to preserve and strengthen the family of the **CHILD** facing crisis that destabilizes normal functioning, to provide assistance for education and opportunities for self-development of the marginalised **CHILD** through a range of supportive programmes, which enrich personality and enhance physical and emotional health and to work towards families' empowerment.

To engage in awareness creation, capacity building and advocacy for better standards in **CHILD** care services and to work at the levels of policy, practices and procedures to assure the **CHILD** his/her rights to family, education and participation.

**INDIAN ASSOCIATION FOR PROMOTION OF
ADOPTION & CHILD WELFARE (IAPA)
ANNUAL REPORT – 2012-2013**

PRESIDENT'S MESSAGE :

It gives us pleasure in presenting the Annual Report for the year 2012 – 2013, the 43rd year of the Indian Association for the Promotion of Adoption and Child Welfare.

An event of significance to us took place in December 2012 to mark completion of 40 years of **IAPA**'s existence in the year 2010. Founder Members, partners, colleagues, donors, well wishers, and staff of **IAPA** got together at a function. This was a celebratory event where the Publication "**40 years of Making a Difference**" and a Film that tells about **IAPA**'s work were released.

Reaching out to children without parental care, children in vulnerable families and other children in need of care and protection continues to be our focus of concern the integrated approach remains constant in servicing children in different situations of vulnerability.

The adoption programme requires close and careful attention to the details in complying with the regulatory conditions, while at the same time attending to the child and the families concerned with utmost care and sensitivity. It is a deeply satisfying experience when the child is finally united with the adoptive family. It is painful though, that some children have to remain behind due to their Special Needs. On the other hand, it was heartening to see restoration of the four children with their birth family. Outreach programmes to promote Safe Surrender of Children in a place of safety, is an activity sustained throughout the year.

In serving children who are affected by crisis in their family and those who need support for continuing education, convergence of a multitude of support services facilitate a holistic development of the child, and strengthening of the family.

The Family assistance programme enables a large number of children to remain in the warmth and security of their single parent or the next kin. Educational Sponsorship programme encourages and sustains education and development of the underprivileged. Positive results are seen in the number of fewer children dropping out of schools. A noteworthy percentage are pursuing higher education in Commerce, Computer Science, and Vocational Courses in nursing and similar vocations.

The Rural Sponsorship Project is forging ahead. Support from well wishers, has encouraged some students to continue their education beyond Std. X, who otherwise, would have ended up taking menial jobs in the city, due to financial constraints. The local committee enthused by the high rating awarded to the school by the Education Board, are hopeful of receiving a grant from them, for management of the school.

The continued support of Bombay Community Public Trust (BCPT) has enabled **IAPA** to continue operating the Life-Skills programme in a school, in conjunction with our Mental Health Programme.

In achieving the goal of serving children and families living in difficult circumstances, the social worker plays a very crucial role. Through rapport building, tapping resources within **IAPA** as well as the outside agencies and government schemes she builds a sense of hope and mobilizes the inner resources of the families, as well as the children.

As the list in this report shows, we have with us a vast number of partners, donors, sponsors and volunteers in pursuing the mission of serving the child in need of care and protection. We are most thankful to them for their contributions and their continued interest. We also acknowledge the dedication and commitment of the **IAPA** Team members, many of whom have been with us for a number of years.

Ms. Najma Goriawalla,
President, **IAPA**

INTERVENTION PROGRAMMES

FOSTER CARE & ADOPTION FOR THE CHILD WITHOUT PARENTAL CARE

EDUCATIONAL SPONSORSHIP FOR THE UNDERPRIVILEGED CHILD

FAMILY ASSISTANCE FOR THE CHILD IN FAMILY CRISIS FAMILY PRESERVATION & EMPOWERMENT ALTERNATIVE FAMILY CARE

CHILD GUIDANCE CENTRE PROMOTION OF EMOTIONAL HEALTH FOR THE STUDENT COMMUNITY

FOSTER CARE & ADOPTION

Adoption is the most preferred option for children who are decidedly in need of a permanent family. Such children are either given up by the birth parent/s or found abandoned. **IAPA**'s intervention starts with the relinquishing parent in the first case. The parent/s is referred for assistance and counseling. In the latter case, the **Child Welfare Committee (CWC)** refers the child to **IAPA** directly for immediate care and further rehabilitation. In either case, **CWC** is the monitoring and the sanctioning authority through out the entire process of the child's rehabilitation, as mandated under the Juvenile Justice Act 2006.

All children received in care are placed with foster families who are working with **IAPA**. Many of our families have been fostering children for a long time with us. Their ability and motivation is enhanced by close support and supervision; as well as through talks by child development experts. Thus, it is ensured that the child receives quality care and right nurturance within a foster family until such time that he/she is legally declared free for adoption by **CWC** and the adoption process of placement is completed. A few children who cannot be placed because of their medical condition or mental attributes remain in foster care for long care or are placed in an institution with suitable care for their special condition.

Prospective adoptive parents (**PAPs**) are counselled and assessed for their eligibility before a suitable child is placed and legalization of the adoption is completed. These procedures are mandated by the **Central Adoption Resource Authority (CARA)** to ensure that the adoption is done in the best interest of the child.

FOSTER FAMILY CARE SERVICES :

Foster families are recruited under the mandated guidelines and the services are operated in a dynamic way. Orientation and regular meetings of the foster families are held. These allow deliberations, mutual learning

and learning from experts on issues that arise in individual cases. Temporary care is also provided to children, whose parent/s are undecided about relinquishment of their child, even beyond the mandated reconsideration period. In four instances birth parents were helped to take the child back after they were ready to revoke their earlier decision.

We laud the commitment of our foster families and a yeoman service they do in nurturing children in their care. They work closely with the doctors attending to our children and we are ever grateful to them too for their support. Even after the adoption, many adoptive families maintain contact with the foster family, a link which can be of great meaning to the child in constructing his/her life story.

Our sincere thanks go to our esteemed donors, for, their help enables us to provide quality care to the child, within warmth and personal care of a family.

Children fostered and Restored **with Biological Parents

Male	Female	Total
4	—	4

**Faced with overwhelming circumstances, some birth parent/s decide to give up the child at his/her birth. Due to the hurdles they face, they do not see any immediate prospect of overcoming them to accept parenthood. Given the time, support and desire for parenting the child, some are able to reconsider the decision and prepare themselves to take the child back for good. Such happy reunions took place in four cases during this year.

ADOPTION SERVICES :

Adoption services start with responding to the enquiries related to adoption. A continuous stream of enquiries are received, both nationally and internationally, over the phone, by mail or in person Many of them are from those going through the consideration of adoption as an alternative for themselves. Others are from a friend or a family of a potential adopter. Preliminary service thus consists in providing information about eligibility, convenient adoption agency, the paperwork and the process depending on the situation of the enquirer.

Prospective adoptive parent (PAP) is registered only once the required papers are submitted by them. Only a small number of enquiries result in registration. The long process of interaction with the PAPs, during the Home Study, preparation of a Home Study Report, matching with an awaiting child under the **IAPA** care or under the care of another agency, filing of petition in the court, and completing legal process may span months to a year. The Adoptive parents are helped through the registration for adoption and the mandated follow up support for two years thereafter. Follow up reports are sent to the designated authorities as required.

In addition to the placement process as mandated, **IAPA** holds Pre adoption orientation meetings for a group of registered PAPs. They serve to communicate information and guidance collectively, as, an adoptive parent along with the **IAPA** staff resource the meeting. The meetings are also cathartic, as parents discover that their fears are not unique and they achieve more comfort in their decision..

Pre-Adoption Services :

Annual Family Meet of Adoptive Parents – March 02, 2013

‘A Child Gives Birth to a Family’. This was the opening statement made by an adoptive father, comparing the **IAPA** Family Meet held on March 2nd, 2013. An adoptive mother of an eight year old daughter expressed a similar refrain, observing that adoptive parents have done no favour to the child, as people commonly believed. It was the child that gave them the good fortune of being parents. The Fancy Dress Competition and Talent Contest held at the function amply reflected the joy on their faces of being proud adoptive parents. Enthusiasm and camaraderie marked the well attended occasion, parents interacted with other adoptive parents, with the foster mothers, as well as with prospective adoptive parents who were keen on seeking information and firsthand experience. Over the last few years, our adoptive parents have taken over the major responsibility in planning and conducting the programme. Their efforts were appreciated by those present, as well as by **IAPA**.

Adoption Awareness Week (AAW) November 14-20, 2012

The week coinciding with Children’s Day, was observed as usual, the focus this year being on ‘Safe Surrender’ of children. The Week is now observed on a national level throughout the country, as declared by CARA.

PREVENTION OF CHILD ABANDONMENT: OUTREACH FOR SAFE SURRENDER :

Our Outreach Programme continues to focus on promotion of safe surrender of children in a place of safety, preventing direct placements and facilitating their rehabilitation through established social / legal procedures. To communicate the message of safe surrender of children, strategies, addressing various target groups, included :

- ◆ Audio Visuals (AVs) produced by **IAPA**, depicting an unwed mother’s anguish over the future of her child; and highlighting her safe surrender were shown on local cable TV networks, some national channels and theatres. These elicited several inquiries.
- ◆ Awareness Creation Programmes – with the cooperation of the Health Department of the Mumbai Municipal Corporation, Community Health Workers (CHWS), nurses and doctors attached to Community Health Centres are being addressed throughout the

city. The health personnel’s direct interaction with disadvantaged communities at the grass root levels facilitates detection of vulnerable cases and guidance to appropriate resources. Material used :

- ◆ Banners – Banners with the **IAPA** Helpline Contact Phone Number were put up at Suburban Railway Stations.

A Document on Safe Surrender of Children in Need of Care and Protection has been prepared by **IAPA** at the request of CARA (Central Adoption Resource Authority). It identifies the vulnerable groups, established procedures for their protection, and elaborates on the consequences of bypassing them; the target groups that need to be addressed; measures to sensitize them and strategies to facilitate and promote Safe Surrender of Children.

List of Outreach Meetings :

Date	Programme	Target
21.5.2012	Programme on ‘Prevention of Abandonment’ at Chandanwadi Health post, Marine Lines, Mumbai	Nursing Staff and CHVs
29.5.2012	Programme on ‘Prevention of Abandonment’ at Naigaon B.M.C Hospital, Naigaon, Mumbai	Nursing Staff and CHVs
14.9.2012 to 11.10.2012	Screening of Audio-visual ‘Parvarish Aur Parivar, Har Bacche Ka Adhikar’ in various cinema houses	General Public
5.10.2012	Programme on ‘Prevention of Abandonment’ at K.E.M. Hospital, Mumbai	RMO’s & Faculty persons
21.10.2012 to 20.11.2012	Display of flex banner on ‘Safe Surrender’ at the railway stations – CST, Parel, Byculla, Dadar & Chinchpokali	General Public
29.1.2013	‘Adoption & its Legal Aspects’ – An Online Talk Time programme on IBN-Lokmat, a Marathi Channel	General Public
15.3.2013	Programme on ‘Prevention of Abandonment’ at Thane Civil Hospital, Thane	Hospital Nurses

SERVICES FOR CHILDREN IN FAMILY CRISIS :

For the child's well-being and overall development it is necessary that certain minimum physical and emotional needs are met by the family. The family that is stricken by crisis is often helpless to meet them. In some cases the child is left inadequately cared for with a relative when the parents are terminally ill or are no more. **IAPA** intervention in such cases aims to offer an alternative to prevent traumas to the child due to neglect or to separation of the child by placement in an institution. Supports are rendered under this family assistance programme, **the Bal Sangopan Yojana (BSY)** of the State Government. A large number of these cases are referred by the **Child Welfare Committee (CWC)** when the care giver applies for placing the child in an institution. Since BSY covered a limited number of 85 - cases, funding was sought to reach out to those in need who were left out by the Scheme. **Since the year 2008 Housing Development Finance Corporation (HDFC)** has extended funding support for the Scheme. Funding for 45 cases is received from them during the year under review.

Close interaction with the care giver, who may be a single parent or relatives make a crucial difference in meeting the goals of empowering the child and strengthening the family. The assistance is not limited to financial aid. The case worker draws on various support services that have continuously evolved in the service to these children. These include among others: coaching classes, medical aid to the child and the family members; vocational guidance and training given to the child as well as siblings; personality development and career guidance programmes; micro – credit, where a small loan is given to the family members to make them self reliant.

A Case History to illustrate an impact of the programme in an individual Child's life :

CASE STORY : Ketan Pawar

Life took a turn for the worse for Ketan, an otherwise healthy and carefree school going boy studying in Std. II. Starting with just the difficulties standing, sitting and walking, his ailment soon made him totally immobile and bed ridden. Since Ketan's parents died, his 63 year old paternal grandmother, a domestic worker, is bringing him up for the last five years. Today Ketan is nearly 13 years of age.

Diagnosed with a rare genetic disorder which weakened his muscles and limbs, there was a ray of hope for Ketan in the Stem Cell Therapy. He is helped with multiple supports to undergo the treatment that has included surgeries. A first surgery in the Sion Hospital has made it possible for him to at least sit. He has still to undergo two more surgeries. The doctors are hopeful that this will put him back on his feet again.

Ketan is provided financial assistance through Bal Sangopan Yojana. Apart from raising funds for his surgery and providing nutritional support, the agency has also enrolled him in a day care school for the physically handicapped children where apart from regular physiotherapy and vocational training his schooling is taken care of. The school has also provided a wheel chair. Ketan is enthused about learning now that he is more mobile. Life is looking up, for the child and his grandmother, despite their very meagre resources. Support given to the grandmother throughout the turbulent times has enabled her to cope with the un-surmountable odds and support Ketan through the ordeal.

Distribution of the Categories Of Children, Their Care Givers and The Child's Status :

Gender Ratio of children :

Girls	Boys	Total
50	35	85

The Care Givers :	
Relatives	53
Biological Parent/s	31

Total	85

The Child's Status :	
Destitute	13
Single Parent	28
Both Parents	03
Orphans	41
Total	85

Distribution of HDFC- support :

Seven children are looked after by single mothers who are HIV positive and eight children by single parents in difficult circumstances.

Girls	Boys	Total
24	21	45

Individual Donor support :

Individual donors have come forward to extend their help to such children and the families fostering them. At present seven children are supported under Private Foster Care program.

Girls	Boys	Total
2	5	7

SPONSORSHIP : EDUCATION & DEVELOPMENT OF THE UNDERPRIVILEGED CHILD

The sponsorship programme, which began in 1995, continues to support education of underprivileged children studying in the Municipal schools of B, C, D & E Wards. Illiteracy, poverty and other debilitating factors such as alcoholism, illness and uncongenial environment of overcrowding or lacking in proper shelter combine to some children dropping out of school without achieving any meaningful education.

IAPA intervention with the monetary support, counseling and other support measures encourage, sustain and enrich the child to realize his/her potential. Through school and home visits as well as supportive services like Child Guidance Centre, coaching help, vocational guidance, training support, medical help as well as other personality development programmes play a major role in the continuation of the child in the educational stream..

With **IAPA's** intervention over the years, the drop out rate in these schools has come down. More students are now not only opting for higher education but also for professional courses. All these developments have been possible because of the solid support from individuals, Trusts, Institutions and Corporate bodies from within as well as outside the country.

Children supported under the Sponsorship Programme :

OUR SPONSORS AND PROJECTS :

Terre des Homme (TdH) Denmark : Urban Project

This year we were fortunate to have the support and personal attention from the **President of TdH-Denmark, Ms Dorthe Kristensen** for children sponsored under the TdH urban project, under which Khetwadi project I is being co-ordinated by her. It was also very heartening for us

to receive an invitation from **Mr. Joern Verner Stendorf Jensen**, head of Secretariat-TdH to celebrate the 60th birthday of their ambassador **Mr. Jan Schou in Denmark**, for which they invited at their own cost, the very first student sponsored by him through our agency and the Project Director of the agency. Although it wasn't possible for the student to travel to Denmark, despite of all the efforts made, it was a proud and touching moment for us to have one of our students invited on this memorable occasion.

Ms Birthe Schmidt, the coordinator of Khetwadi project II, gladdened the hearts of children and their families by donating her prize money received from the Danish State Football Pools, to us. From this, we were able to give a generous mix of various groceries and hygiene kits items to the 121 children and their families under the Urban Project and also provide warmth and relief to the families of 48 students from the TdH rural project at Terewayangani, who were given much needed blankets and food grains.

The positive Board results obtained in June 2012, by the TdH sponsored children under the Khetwadi project were also quite encouraging. Eight students appeared for the graduation exams of which six students got above 60 percent marks while one student scored above 70 percent marks. Only one student scored below 60 percent marks.

This is a stupendous achievement especially for the graduate students who despite having illiterate parents, unsuitable homes, alcoholic or mentally unstable fathers, have battled through these and other difficult situations in their lives to fulfill the dreams they had aspired for. Some of them have worked alongwith studying but continued to pursue their ambitions and achieved the position of being the first members of their families to complete their graduation, that too with a noteworthy percentage.

The TdH-IAPA Rural Project : The Project continues to provide sponsorship support for children from Std. VIII to Std. X of **Kamlakar Janardhan Bhai Javkar Vidyamandir in Terewayangani, Dapoli.**

This year too extra classes were conducted for the students of Std. X from December to March. The classes conducted before and after school hours by the school teachers ensures better results. This year apart from dinner, students were also provided tea and biscuits to freshen them up when they get up in the morning around 4.00 a.m. A session on 'study skills' was organised for these students which helped impart study techniques and enhance comprehension and recall of the matter studied.

To encourage students who give up pursuit of higher education after Std. X due to financial constraints and to prevent their ending up in cities for manual jobs, sponsorship for further studies were offered by well wishers **Mr. Shakir Macchiwala and Ms. Sunita Motwani** to some students.

With **Ms. Margaret Mehta's** help a verandah for the new school building was constructed. This allowed the school to qualify for sanction from the education department.

A CASE STORY

Intimate contact and one to one relationship with the student and the family make a crucial difference in helping students from struggling households to sustain through the important years in the educational stream and achieve the goals of bettering the future prospects. Poonam's case illustrates this.

Poonam : The highest scorer among the students supported by **IAPA** in the year 2011-12. Poonam passed the Bachelor of Commerce (BCom) examination. A particularly significant achievement, since Poonam comes from an underprivileged family where she and her siblings are the first generation to complete their schooling.

Were it not for her mother's single-minded struggle to see that her four children had a better future, it would not have been possible to sustain Poonam through the years of college education. Working at domestic jobs, Poonam's mother had to take care of her four children

as well as her husband who worked intermittently and earned a small, uncertain income. Moreover, many members of the extended family shared the household, but not always the financial burden. Poonam was required to share the household work, assist her younger siblings in their studies and be a part of her mother's struggles.

Further, having studied in the Marathi medium in the BMC school, Poonam's transition to an English medium was fraught with difficulties. Assistance and emotional support to her and the mother, at every stage, arranging for the coaching classes, computer training, English speaking and Career Guidance besides regular counseling by the social worker encouraged her to forge ahead. To partially pay for her additional education expenses, she joined a dentist's clinic part-time.

The Jamnadas and Kantaben Chatwani Sponsorship Project : The project supported by the Chatwani family based in UK continued to support 94 students. Due to the support extended by the family more and more children are able to complete their graduation.

This year six students are in the final year of their graduation. Of these five are doing their graduation in the Commerce stream. Rakhi Sakpal is doing her Bachelors in Computer Applications along with graduation in Commerce. Anand is in the final year of Bachelors in Computer Science.

A bright student, he has come this far despite poor health and difficult family circumstances. His father an alcoholic did not contribute anything to the household but only added to their woes by selling off household articles when no one was around. There were constant fights. Anand's mother worked as a domestic help and supported Anand, his brother and sister. The constant fights and financial constraints started taking its toll on his health. He was very weak and constantly ill. He has come this far due to his mother and the sponsorship support.

Chance of Life (Germany) : IAPA's association with **Chance Of Life (COL)** which began in the year 2004 has brought about a considerable change in the lives of the girl child in sustaining their education and equipping them along with their families.

The programme which began in 2005 aims at continuing the education of the girl child without disruption thus resulting in the reduction of the dropout rate while at the same time striving for the overall development of the child as well as the family. At present 100 girls are being supported through the programme. Apart from the sponsorship help for education the sponsor also strives to nurture the talents of the sponsored girls by helping them to pursue their hobbies. Miscellaneous help is also given in the form of house repairs and coaching class funds.

Ms. Rita Steinau, President of COL visits the project at least once a year along with some Board members. They interact with the students and women supported under COL projects.

Individual Sponsorship Project : This project makes it possible for an individual to help one educate a lesser privileged child thus making a difference in the lives of these children. Under this project sponsors help a single child while there are others who help two or more or even a group of children. It enables the sponsor to have a one to one relationship with the child thus forging a life time bond. The children who have the potential and strive to make a career in their field of interest are able to go ahead only because of the support extended by their sponsors. Apart from the educational help the sponsor also tries to support for the overall well being of the child through various means.

M.D. Thackersey Trust : The Trust is continuing to help girls. From last year onwards twenty more girls are being helped taking the number of students being covered under the project to forty. On the occasion of Diwali these girls were sent greeting cards with their names printed on them from the Trust. Siddhi Sanap has passed with 84.60 % marks in Std. X and has opted for three year Diploma in Electronics.

Late Meera Srinivasan Scholars Programme : The programme was started by **Mr. Srinivasan** in memory of his wife Meera Srinivasan who was keenly involved in furthering children's education. At present five students are being provided sponsorship help while five children who are in pre-adoptive foster care are also supported through this programme.

Mumbadevi Trust Scheme : **The Trust is providing educational support to ten students and thus is helping them in continuing their education.**

ANNUAL SPONSORSHIP DAY :

The Annual Sponsorship Day of **IAPA** was organized for the sponsored school going students of Std. IV to IX at Gilder Lane Municipal School. Around 290 students from various schools attended the same enthusiastically. The event gives a chance for the children to interact with each other, showcase their talent and enjoy themselves.

The students who had done well in the Board Exams for Std. X and Std. XII and those who graduated with a college degree were facilitated. Since two of the college students anchored the programme, the participants responded to the felicitation with long display of approval and enthusiasm.

As in the past, Mr. Sanjiv and Preeti Kapur along with their family and friends personally organised and conducted the Fun-n-Fair with children.

SUPPORTIVE SERVICES

Supportive services are provided for strengthening the child and the family with the objective of rehabilitating the family as a whole.

CHILD GUIDANCE CENTRE ‘AASTHA’ :

Our Child Guidance Centre (CGC) ‘Aastha’ continued its interventions through professional counseling, testing, play therapy, remedial therapy and medication. The Centre takes care of the psychological wellbeing and learning issues of children who are being helped under the different programmes. In addition, other children referred by the schools in the area are also served by CGC. The service is operated by the team of four honorary professionals. They are: a psychiatrist, occupational therapist, psychologist and a counselor.

CGC worked on a bi-weekly basis during the school year. 40 new cases and 128 follow-up visits were attended, during this year.

TYPE OF CASES	GIRLS	BOYS	TOTAL
Academic Backwardness (including lack of Comprehension / Attention / Motivation)	4	9	13
Emotional issues	5	2	7
Behaviour problems	7	9	16
Psychiatric problems	1	–	1
Physical issues	2	1	3
TOTAL	19	21	40

Vocational Training

Funds for Vocational Training programmes continue to support the efforts of students, their siblings and family members to become self-reliant by equipping them with skills.

The agency is conducting courses in basic computers and Tally. Tailoring is another skill training programme. During the summer vacation, Mehendi and jewellery- making courses were conducted. Some of the jewellery were put up for sales at the NGO Mela.

The programme has been supported by the **Chance of Life’ (COL) Germany, and Terre des Hommes (TdH) Denmark.**

Medical Assistance :

The medical assistance fund serves to meet the crucial medical and nutrition needs of the sponsored children and their family members. Due to financial constraints families have to forego medicines that are costly. The fund enables **IAPA** to provide vital medical support. Nutritional needs, specially for those undergoing tuberculosis treatment are also met, as, this is crucial for effectiveness of the medication. Funds are also used for helping those affected by life threatening diseases like multi-drug resistant (MDR) T.B. and other long term debilitating diseases.

The funds for the above purposes are provided by the **Chance of Life’ (COL)Germany, Terre des Hommes (TdH) Denmark** and an individual sponsor, **Alpana Dange.**

Ammada Trust

Since 2007 the Ammada Trust has been supporting our children in meeting educational expenses ranging from school, college fees and coaching class fees. It is only because of their help that many students are able to go for coaching classes which becomes a necessity for clearing the Board examinations. Many of the students have done exceptionally well and joined specialized courses.

Micro Finance

Under this program women were provided with a loan to start their own business or expand their existing one to enable them to augment the family income. Two women who completed their tailoring course through **IAPA** were given a loan to buy a sewing machine. One woman was helped to expand her existing business of sales of pickles and papads while another woman was helped to buy an auto rickshaw.

The Programme is supported by **Chance of Life (COL) Germany**.

Janashree Bima Yojana Scheme

The government scheme, launched in August 2000 provides life insurance protection to the rural and urban poor. **IAPA** has been implementing the scheme since 2004 and eligible families are helped to take its benefit by paying an annual premium of a nominal amount of Rs.100/-. The policy provides for an insurance cover of Rs. 30,000/- on natural death, Rs. 75000 /- for accidental death or permanent disability and Rs. 37500/- for partial disability. In addition, children of those insured under the scheme are eligible to receive yearly scholarship of Rs.1200/-, if they are studying in classes 9th to 12th standard.

One nominee has received Rs. 30,000/- after the death of her mother while 30 students have availed of the scholarship up to now.

ONGOING EXTENTION PROJECTS

Over the years, **IAPA** has been adding programmes that would supplement the core services for the disadvantaged children. Some of them were initiated through collaboration with specific agencies and some others through donor support.

Mental Health Initiatives

Flying High : In the year 2009 **IAPA** along with two other child guidance facilities joined the **Bombay Community Public Trust (BCPT)** in a collaborative pilot project, Flying High, funded by the **JRD Tata Trust**. The project's aim is to promote emotional health and social skills of disadvantaged children. **IAPA** has been implementing the project in **Chikitsak Samuha Shirolkar High School** since its inception. While the Pilot Project ended by the year 2011, **IAPA** has continued to operate the service along with BCPT support.

The programme imparts Life Skills to students from standard V to VII. The sessions are aimed at inculcating moral values and enhancing abilities for problem-solving, decision making, empathy, creativity and critical thinking. These are imparted within the context of everyday life of the students. The programme helps in enhancing self-esteem and reducing the sense of insecurity. The ultimate aim is to develop a well balanced child who develops resilience to cope with the ups and downs of life.

'Service Learning' forms a part of the Programme that encourages students to identify themes of social concern. This year the theme was "**Safety of Children**". Posters, Role play and a visit to the Police Station were some of the activities undertaken by the students. The group activities promote team spirit and bonding. A positive impact of the programme was observed by the school staff in terms of the friendship, cooperation and rapport among the students.

The parents and teachers who are significant participants in the project also gave a good response by attending and involving themselves in the sessions designed for them.

Mental Health Forum :

IAPA as one of the members of the Forum for Promoting Mental Health & Well-being in Schools has started promoting its concept amongst schools, NGO's and interested individuals. The Bombay Community Public Trust (BCPT) has taken the initiative of starting this forum which is a voluntary group whose mission is to advocate importance of mental health of children and the need for educational authorities & schools to take proactive steps for including life skills in the curriculum. The chief aims of the Forum are to remove misconceptions and stigmas attached to mental health issues, encourage schools to promote mental well-being in their schools, ensure access to group and individual counseling facilities and engage with government & education authorities on mental health policy issues.

Asmita

Asmita, the personality development programmes for the students of West Khetwadi Municipal School adopted by **IAPA** was started in 2009. Apart from the regular subjects of Mathematics and English, computer training, yoga and dance classes are also conducted. The programme is operated with teachers who are paid honorarium as well as some volunteers. Snack provided at the end of the sessions makes sure that the child is sustained till the next meal, provided in the school. At present a few students of the nearby Municipal Schools also attend the programme. In all 40 students attended the programme through the current year. Teachers from **Dharmbharati Mission an NGO** taught English, once a week. The children enjoyed these sessions, especially since C.Ds., flash cards, charts, etc were used to make the contents interesting. Another NGO **Arpan**, sensitized the students on the issues of child sexual abuse. Social work students of **SNDT University** took the students to 'Jijamata udyan' at Byculla. Students of **H.R. College's Rotaract Club** organized an open bus Mumbai Darshan trip.

Asmita's Foundation Day was celebrated by organizing fun and competitive activities like essay writing, memory game, tiling the elephant, drawing competitions in the month of July, 2012.

TdH Mid-Day Meal Fund :

The fund provides nutritious snacks like 'poha, upma, idli, thepla, bananas, etc to students of, Cumballa Hill Municipal School, two Balwadi and the students participating in the Asmita programme.

Kamal Foundation :

Kamal Foundation is formed through funds donated by **Mrs. Nargis Udawadia** and her family. The fund is committed for the treatment of children who suffer neurological ailments. Families of children needing assistance are referred to **IAPA** by **Dr. Anaita Udawadia Hedge**, a leading pediatric neurologist attached to the Jaslok and the Wadia Hospitals.

IAPA assesses the need of the family through home and hospital visits and mediates on behalf of the family. Dr. Anaita performs surgeries and **IAPA** follows through the long treatment. During this period, 39 children were helped with the Foundation's support.

OTHER ACTIVITIES OF THE ORGANIZATION

Publication Of The Booklet :

'40 YEARS OF MAKING A DIFFERENCE' and a Celebratory Function :

The year 2010 marked **IAPA's** 40 years of fruitful existence. A celebratory function which was delayed, was finally held during the year under review, (on December 15, 2012.) It was attended by members of the Association, partners, colleagues, adoptive parents, well wishers and **IAPA** staff. **Dr. Armaity Desai, founder member**, released the publication '**40 years of Making a Difference**'. She recalled the significant developments in **IAPA's** early history, particularly about the efforts in lobbying for a uniform adoption law. She urged continuation of these efforts to achieve such a uniform law which has remained unrealized so far.

Dr. Nilima Mehta, Mrs. Najma Goriawalla and Mrs. Kaumudi Telang recalled **IAPA's** journey through phases of development of the various family based services for vulnerable children. **Dr. Rajashree Mahtani, founder of the 'Knowledge White Board'**, spoke about her role in independent assessment of **IAPA's** outreach work in adoption in other parts of the country. An adoptive father and two sponsored children spoke on their positive experiences with **IAPA**. Letters of appreciation from the **IAPA** Chapters, who were unable to attend the function, were read out. A short Film on **IAPA's** programmes, prepared for the occasion, was also screened.

Fora :

Workshops organized by the agency during the year :

Month	Particulars	Target	Conducted by
March 2013	Session on substance abuse with focus on tobacco	Parents	Salaam Bombay Foundation
March 2013	Workshop on Alcoholism	Parents	Alcoholic Anonymous
March 2013	Workshop for people living with HIV Aids	Parents	People living with HIV
April 2013	Session on 'food adulteration'	Students	Consumer Guidance Society

Workshops attended – (Representation of **IAPA** at various forums.)

June 2012 & March 2013	Workshop on Monitoring & Evaluation of Social Projects conducted by Ms.Rasjashri Mahtani
August 2012	A State level consultation programme on Advocacy & Initiative around HIV / AIDS infected and affected children
Jan 2013	Two day workshop on Legal Financial Management of NGO training conducted by Centre for Advancement of Philanthropy.
Feb 2013	International meet on Adoption convened by CARA at New Delhi

- Two students of first year MSW of SNDT were placed for field work in our agency during the year.

UNICEF Visit :

State representatives of UNICEF had convened a one day meeting with **IAPA** on 18th June 2012. This was part of its learning initiative programme on family strengthening and non-institutional alternative care services for the UNICEF Child Protection field staff and other government officers from Bihar and West Bengal. **IAPA** staff made presentations, arranged interviews and visits with the recipients assisted under the various schemes. **Dr. Mrs. Shaila Mhatre, the Chairperson of the Child Welfare Committee (CWC)** spoke about the types of cases processed by the CWC and the challenges in identifying viable rehabilitation options for the child in need of care and protection.

Accreditation :

Accreditation Certificate was awarded to **IAPA** by the **Credibility Alliance** for : Adhering to Desirable Norms Prescribed for Good Governance for Voluntary Organizations The Certificate is valid for a period of five years.

Fund Raising :

Standard Chartered Mumbai Marathon (SCMM) 2013 : The Marathon platform was used for the fourth consecutive year to raise funds for **IAPA**. This year apart from individual donors the Housing Development Finance Corporation Limited (HDFC) supported **IAPA** under the Corporate Challenge category. **IAPA** is deeply grateful to HDFC for the support.

NEWSLETTER :

Two editions of Newsletter were brought out during the year highlighting the activities, events of the year, and other issues of interest.

APPRECIATION

Our special thanks are due to all those who have supported our programmes financially and / or otherwise rendered services in their individual capacity.
